

## About Me

### Clear Calm Bookkeeping for Real People

I'm Julia, a UK based freelance bookkeeper who believes financial clarity shouldn't feel intimidating. I help small business owners stay organised with simple systems, clear communication, and a friendly, supportive approach. I know how overwhelming bookkeeping can feel when you're juggling everything yourself. If I find mistakes in your books, I will gently guide you to identify any overlooked information, ensuring accurate records. My goal is to make it manageable — and even empowering — by giving you structure, confidence, and a sense of calm around your numbers.

### Professional Credibility

- Experience with small business admin
- Strong organisational systems
- Clear communication and client care
- Understanding of UK sole trader needs

### My Approach

I keep things:

- **Simple** — no jargon, no unnecessary complexity
- **Supportive** — I meet you where you are, without judgement
- **Structured** — clear processes, tidy records, predictable routines
- **Human** — because your business is personal, and your finances deserve care

### Why I started

I've seen how much stress disorganised finances can cause for sole traders and small business owners. When you're trying to do everything yourself, bookkeeping often becomes the task that gets pushed aside — until it becomes urgent. I created this service to give people a calmer, clearer way forward. A way to feel in control again.

### What You Can Expect

- Friendly, reliable communication
- Transparent processes
- A tidy, organised financial picture
- A partner who genuinely wants your business to thrive

We're Here To Help You Succeed!
